**Re: The Narragansett Electric Company
Revolution Wind 115 kV Transmission Line Upgrade Project
East Greenwich, North Kingstown, Warwick**

Dear Mr. Watson:

Pursuant to Section 42-98-8 of the General Laws of the State of Rhode Island ("Energy Facility Siting Act") and Section 1.6 (f) of the Rules of Practice and Procedure of the Energy Facility Siting Board ("Rules"), I hereby notify you that the Notice of Intent Application for the Revolution Wind Transmission Line Upgrade Project (consisting of the replacement and reconductoring of sections of the G185N, K189, G185S and L190S 115 kV transmission lines), as described in the application filed with the Energy Facility Siting Board ("EFSB") by the Narragansett Electric Company on November 28, 2022, is docketed as of December 9, 2022. The Notice of Intent Application is assigned Docket No. SB-2022-05. This letter shall constitute written notice of the docketing date.

As required by Rule 1.6 (h), the EFSB will hold a public hearing in at least one of the affected cities and towns, including East Greenwich, North Kingstown, and Warwick. Subsequent to those hearings, the EFSB will determine "whether the project may result in a significant impact on the environment or the public health, safety and welfare," thereby requiring full EFSB review.

Should you have any questions, please do not hesitate to call me at 401-780-2173.

Sincerely,

Emma Rodvien
Energy Facility Siting Board Coordinator
